

SANDBLASTER[®] AUTOMATIC FLUE DAMPER

Self-Cleaning Commercial Gas Water Heater - SBD Models

Sandblaster[®] is the original money-saving self-cleaning water heater. It provides outstanding performance and installation flexibility for new construction and replacement applications. The Sandblaster SBD series offers installer-friendly features, including compact low-profile design, multiple options for water connections and low installation clearances.

Hydro Cannon™

Self-Cleaning Hydro Cannon™

- Significantly reduces sediment buildup inside the tank
- Helps maintain rated thermal efficiency, reduces water heating costs
- Helps prolong tank life

Automatic Flue Damper

- Automatic motorized flue damper helps minimize standby heat loss
- Low-profile draft diverter helps for installation in tight spaces

Three Water Connection Options

- Hot and cold water connections can be made through front, top or rear of unit
- Hydro Cannon™ operates when cold water is connected through front

Intermittent Electronic Ignition

- Eliminates standing pilot, saves energy
- Includes power ON/OFF switch
- Provides flame failure response in less than one second

Glass-Lined Tank, with Multiple Anode Rods

- Provides outstanding protection against corrosion

Factory-Installed Temperature and Pressure Relief Valve

Maximum Hydrostatic Working Pressure 160 psi

80% Thermal Efficiency

Meets ASHRAE/IESNA 90.1-2004 Requirements

- Design-certified by UL (Underwriters Laboratories), according to ANSZ21.10.3-CSA 4.3 standards governing storage-type water heaters
- Design-certified by Underwriters Laboratories Sanitation to NSF Standard 5 for 180°F (62°C) water
- Optional ASME tank construction available

Three-Year Limited Tank Warranty

- For complete warranty information, consult written warranty shipped with water heater or contact State Water Heaters

For more information on Sandblaster[®] contact:
 State Water Heaters
 500 Tennessee Waltz Parkway, Ashland City, TN 37015

SANDBLASTER® AUTOMATIC FLUE DAMPER

Self-Cleaning Commercial Gas Water Heater - SBD Models

Other Sandblaster® Features

Fully Automatic Control System

- Manual-reset gas shut-off device prevents excessive water temperature
- Adjustable thermostat with 120° - 180° range
- Gas pressure regulator and pilot filter

Handhole Cleanout

- Allows easy access to tank interior for cleaning

Plug Kits

- Pipe nipples and caps included to plug unused water connections

Sandblaster® Options

Manifold Kits for Multiple Heater Installations

- 2-unit kit, Part Number 9003426205
- 3-unit kit, Part Number 9003427205
- 4-unit kit, Part Number 9003428205

Optional Leg Kit to Meet NSF Standard 5

- For all SBD models, Part Number 9003425205

Side Wall Power Venting Kits

- For SBD71 120NE through SBD100 199NES, Part Number 9006015005
- For SBD100 250NE through SBD85 500NE, Part Number 9006016005
- For installation of approved power venter to operate in conjunction with water heater thermostat
- Field wiring should conform to latest version of the National Electric Code ANSI/NFPA No. 70
- For more information, consult manual shipped with water heater or contact the State Water Heaters Technical Support Center at 1-800-365-0024

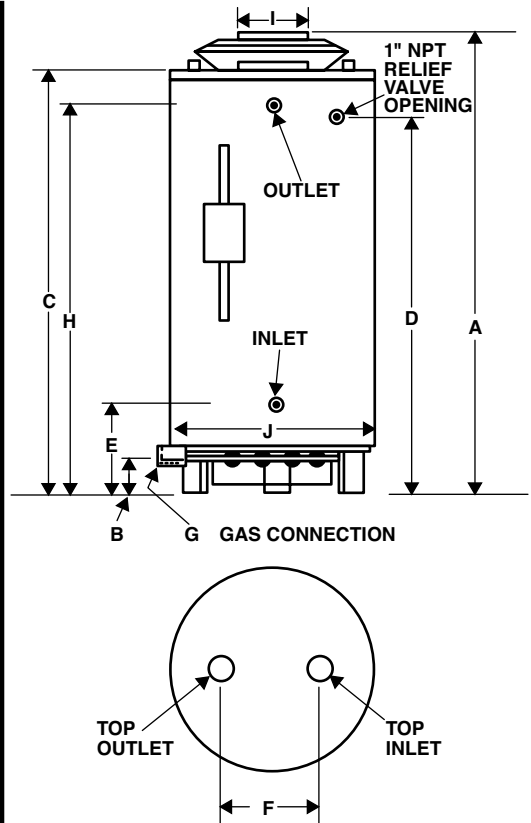

WATER CONNECTIONS IN INCHES	
TOP INLET AND OUTLET	1-1/2" on all models except SBD65 251 and SBD65 305, not equipped with top connections
FRONT INLET AND OUTLET	1-1/2" on all models except 2" on SBD100 199NES, SBD100 250, SBD100 275 and SBD 100 390
BACK INLET AND OUTLET	1-1/2" on all models except 2" on SBD100 199NE, SBD100 250, SBD100 275 AND SBD100 390

SBD100 250NE, SBD100 275NE models shipped with 8" to 6" vent reducer. Certified for both 6" or 8" vent.

SANDBLASTER® AUTOMATIC FLUE DAMPER

Self-Cleaning Commercial Gas Water Heater - SBD Models

SUGGESTED SPECIFICATION

(Natural or Propane) gas water heater(s) shall be State Sandblaster® model # _____ or equal, with a storage capacity of _____ gallons, an input rating of _____ BTUs per hour, a recovery rating of _____ GPH at 100°F rise and a maximum hydrostatic working pressure of 160 psi. Water heater(s) shall be protected against overheating caused by the buildup of scale, film and other sediment by a self-cleaning device, positioned inside the tank so that it directs the flow of inlet water to keep precipitated solids in suspension so that they are removed from the water heater on that or successive draws. Glass-lined water heater(s) shall also be protected against electrolytic corrosion by multiple factory-installed anode rods. In addition, water heater(s) shall: 1) Be equipped with an integrated control system consisting of a 180°F adjustable thermostat with upper and lower sensing bulbs. 2) Be equipped with intermittent electronic ignition, a manual reset gas shutoff device, a gas pressure regulator, automatic flue damper, factory-installed AGA-rated temperature and pressure relief valve and 2-3/4" x 3-3/4" tank inspection port. 3) Be design-certified by Underwriters Laboratories under Volume III tests for commercial water heaters for delivery of 180° water. 4) Be design-certified by UL (Underwriters Laboratories) to current edition of ANSZ21.10.3 - CSA 4.3 standards governing storage-type water heaters. 5) Meet requirements of ASHRAE/IESNA 90.1-2004. 6) Have a 3-year limited warranty against corrosion as outlined in the written warranty.

For complete information on limited warranties, consult written warranty, or contact the State Customer Care Center, 1-800-365-0024.
